Define the Problem Statements

Date	19 October 2022
Team ID	PNT2022TMID02696
Project Name	SKILL AND JOB RECOMMENDER
Maximum Marks	2 Marks

Problem Statement :

To develop an end-to-end web application capable of displaying the current job openings based on the user skillset. The user and their information are stored in the Database. An alert is sent when there is an opening based on the user skillset. Users will interact with the chatbot and can get the recommendations based on their skills. We can use a job search API to get the current job openings in the market which will fetch the data directly from the webpage.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Ezhil Who is a Graduate	Get a job	I am unaware of opportunities available	I don't have correct guidance	Inferior to others
PS-2	Krish Who is a Job seeker	Find alternate job with more benefits	I am unable to get the information about the job I expect	I am unaware of current updates of jobs I seek for	Stressed
